GENERAL DIRECTOR

Engineer Naqibshah Ayubi

GENERAL DIRECTOR

Message from the General Director

> In the Name of Allah, the Most Gracious, the Most Merciful

To the respected patients of **Ayubi Al-Shifa Medical Complex**, their esteemed families, healthcare professionals, partner organizations, and all valued stakeholders:

Health is one of the greatest blessings in human life, and providing high-quality healthcare services is not merely a professional duty for us; it is a great social and humanitarian responsibility.

Based on this commitment, **Ayubi Al-Shifa Medical Complex** strives to provide patients with safe, high-quality, reliable, and patient-centered healthcare services. We are committed to ensuring that professional ethics, scientific principles, patients' rights, safety, privacy, and human dignity remain at the heart of our services.

We believe that a standard hospital is not measured solely by its building, equipment, or number of beds. Its true value is created through professional and dedicated human resources, quality medical services, effective management, patient safety, transparency, and continuous improvement.

Therefore, we place strong emphasis on continuously strengthening our medical and administrative systems, evaluating quality, developing the capacity of our staff, and increasing patient satisfaction.

Currently, **Ayubi Al-Shifa Medical Complex operates as a 30-bed hospital**. Our strategic vision is to expand our capacity in a structured and phased manner, first to **50 beds** and eventually to **100 beds.**

The purpose of this expansion is not simply to increase the number of beds. Our goal is to simultaneously strengthen specialized medical services, diagnostics, surgery, emergency care, maternal and child health, intensive care, medical technology, human resources, and quality management systems.

We are particularly committed to establishing professional and sustainable partnerships with government institutions, healthcare organizations, national and international non-governmental organizations, donors, development partners, and other healthcare institutions. We believe that cooperation, coordination, accountability, and joint efforts are essential to the effectiveness and sustainability of healthcare services.

We consider the trust of our patients and clients to be our greatest asset. Therefore, we are committed to providing care to every patient based on **respect, fairness, confidentiality, professional ethics, safety, and human dignity**.

Our Motto

"Health, Trust & Professional Care"

Guided by this motto, we will strive to establish **Ayubi Al-Shifa Medical Complex** as a trusted healthcare center recognized for quality, trust, and professional services, while fulfilling our responsibility to strengthen healthcare services in **Khost Province and throughout Afghanistan** with sincerity and dedication.

Sincerely,
General Director
Ayubi Al-Shifa Medical Complex

HOSPITAL INTRODUCTION

Hospital Introduction

Brief Introduction to Ayubi Al-Shifa Medical Complex

Hospital Introduction & Background

Ayubi Al-Shifa Medical Complex is a healthcare institution established in Khost Province with the aim of providing high-quality, standardized, and community-based healthcare services. The primary purpose of establishing this facility was to provide the people of Khost with reliable, professional, and well-organized healthcare services around the clock and to play a practical role in addressing existing gaps in healthcare delivery.

Ayubi Al-Shifa initially began its operations as **"Ayubi Al-Shifa 5-Bed Internal Medicine Hospital."** In response to the growing needs of the community, increasing demand for healthcare services, and the expansion of hospital services, the facility gradually and systematically expanded its capacity, medical services, equipment, and human resources over the past five years. Today, it operates as **Ayubi Al-Shifa Medical Complex, a 30-bed healthcare facility.**

One of the key reasons for establishing this healthcare center was the serious need for standardized and organized **24-hour healthcare services** in Khost Province. In particular, families faced significant challenges in accessing timely care for emergency patients, urgent cases occurring at night, and patients requiring hospitalization, diagnostic services, and continuous medical care. There was also a clear need within the private healthcare sector for an organized inpatient system, 24-hour services, and the availability of several essential medical services under one roof.

Based on these needs, the founders of Ayubi Al-Shifa decided to establish an equipped, organized, and **patient-centered hospital** capable of providing accessible healthcare services to different segments of the community. Particular attention was given to serving families and patients who face limitations in accessing healthcare services due to financial difficulties.

Throughout its operations, Ayubi Al-Shifa Medical Complex has sought to make **professional medical care, patient safety, respect for human dignity, professional ethics, quality, transparency, and continuous improvement** the core principles of its activities.

> We believe that healthcare should not be limited to providing treatment alone. Patients should feel respected, protected, and professionally cared for throughout every stage of their **diagnosis, treatment, care, and follow-up**, with their privacy, safety, and dignity fully respected.

COMMUNITY

Our Role in the Community

Ayubi Al-Shifa Medical Complex considers itself a responsible partner in addressing the healthcare needs of the community. We strive to play a greater role in improving the quality, accessibility, and effectiveness of healthcare services through collaboration with government institutions, national and international healthcare organizations, NGOs, donors, and other development and healthcare partners.

Our Commitment

To provide every patient with high-quality, safe, reliable, and dignified healthcare services, regardless of their economic or social status.

Our Motto

“Health, Trust & Professional Care”

DIRECTION

VISION

The vision of Ayubi Al-Shifa Medical Complex is to be recognized as a trusted, standardized, and leading healthcare institution in Khost Province and the southeastern region of Afghanistan; a healthcare organization that provides accessible, high-quality healthcare services to all people based on international healthcare standards, professional ethics, patient-centered care, safety, and quality.

We strive to build a comprehensive medical complex through continuous improvement, modern medical technology, skilled human resources, effective management, and standardized healthcare systems. Our goal is to effectively meet the healthcare needs of the community in the areas of diagnosis, treatment, surgery, emergency services, maternal and child health, intensive care, and specialized medical services.

The long-term vision of Ayubi Al-Shifa Medical Complex is to systematically expand its current capacity from 30 beds to 50 beds and eventually to 100 beds, continuously improve the quality of healthcare services, and become a trusted, safe, and professional center for medical treatment.

We believe that healthcare is not limited to treating illness; it is also about protecting human life, dignity, and well-being. Therefore, our vision is to create a healthcare environment where every patient feels respected, treated fairly, assured of confidentiality and safety, and provided with professional care.

MISSION

The mission of Ayubi Al-Shifa Medical Complex is to ensure the provision of safe, high-quality, standardized, and reliable healthcare services to the people of Khost Province and surrounding areas. These services are designed around patients' needs, human dignity, professional ethics, and evidence-based medical principles.

We are committed to providing patients with access to diagnosis, treatment, emergency care, surgery, inpatient services, and other essential healthcare services through a professional and dedicated medical team, modern medical equipment, effective management systems, standardized diagnostic facilities, and continuous quality monitoring.

The mission of Ayubi Al-Shifa Medical Complex extends beyond treating illness. Our goal is to provide patients and their families with healthcare services in which safety, respect, confidentiality, fairness, and patient satisfaction are fundamental values.

We particularly strive to make healthcare services accessible to all segments of the community and to provide appropriate and compassionate care for patients who face financial limitations in accessing healthcare.

Furthermore, Ayubi Al-Shifa Medical Complex is committed to improving the quality of healthcare services through continuous development, staff capacity building, implementation of healthcare standards, strengthening patient safety, and effective collaboration with government institutions, national and international healthcare organizations, and other partners.

OUR PRINCIPLES

Core Values

The core values of **Ayubi Al-Shifa Medical Complex** are the fundamental principles that guide our medical services, administrative activities, patient care, and relationships with the community. We are committed to delivering all our services based on the following values:

1. **Patient-Centered Care**
   We place patients at the center of everything we do and prioritize their needs, rights, safety, and satisfaction.

2. **Quality & Professionalism**
   We are committed to providing healthcare services in accordance with scientific principles, professional standards, and best medical practices.

3. **Patient Safety**
   Patient safety is one of our primary responsibilities. We continuously work to reduce risks, implement standardized procedures, and ensure safe and effective care.

4. **Integrity & Transparency**
   We uphold the principles of honesty, transparency, accountability, and integrity in all medical, administrative, and financial activities.

5. **Respect & Human Dignity**
   We provide every patient and visitor with respectful, fair, and compassionate care, regardless of their social or economic status.

6. **Confidentiality & Trust**
   We protect patients' personal information and medical records and strive to create an environment built on trust and confidentiality.

7. **Teamwork & Collaboration**
   We believe that effective collaboration and coordination among medical, administrative, and support teams are essential to delivering high-quality healthcare services.

8. **Continuous Improvement**
   We are committed to continuously improving the quality of our services, developing staff capabilities, adopting new medical technologies, and strengthening our systems and processes.

9. **Social Responsibility**
   We consider ourselves a responsible healthcare partner within the community and strive to play a positive role in addressing the healthcare needs of the people.

10. **Equity & Accessibility**
    We strive to make healthcare services accessible to all segments of the community to the greatest extent possible and to provide appropriate care for those who need it most.

LEGAL & OFFICIAL

Legal & Registration Information

Ayubi Al-Shifa Medical Complex is a healthcare institution established to operate in accordance with the applicable laws of Afghanistan and the relevant regulations governing healthcare services.

The healthcare facility initially began its operations as “Ayubi Al-Shifa 5-Bed Internal Medicine Hospital.” Following the expansion of healthcare services, increasing community needs, and the goal of providing standardized healthcare services, the facility began a process of capacity expansion and is currently progressing toward operating as a 30-bed Ayubi Al-Shifa Medical Complex.

The hospital’s legal status, licensing, and official registration processes are being carried out in accordance with the requirements and procedures of the relevant government authorities.

Basic Official Information

- Patient Registration
- Medical Records
- Daily and Monthly Reports
- Service Statistics
- Data Confidentiality
- Management Information Reports

LOGISTICS AND PROCUREMENT DEPARTMENT

Key Responsibilities

- Needs Assessment
- Procurement of Medical Equipment and Supplies
- Supplier Management
- Warehouse Management
- Inventory Control
- Continuity of Supply

OPERATIONS

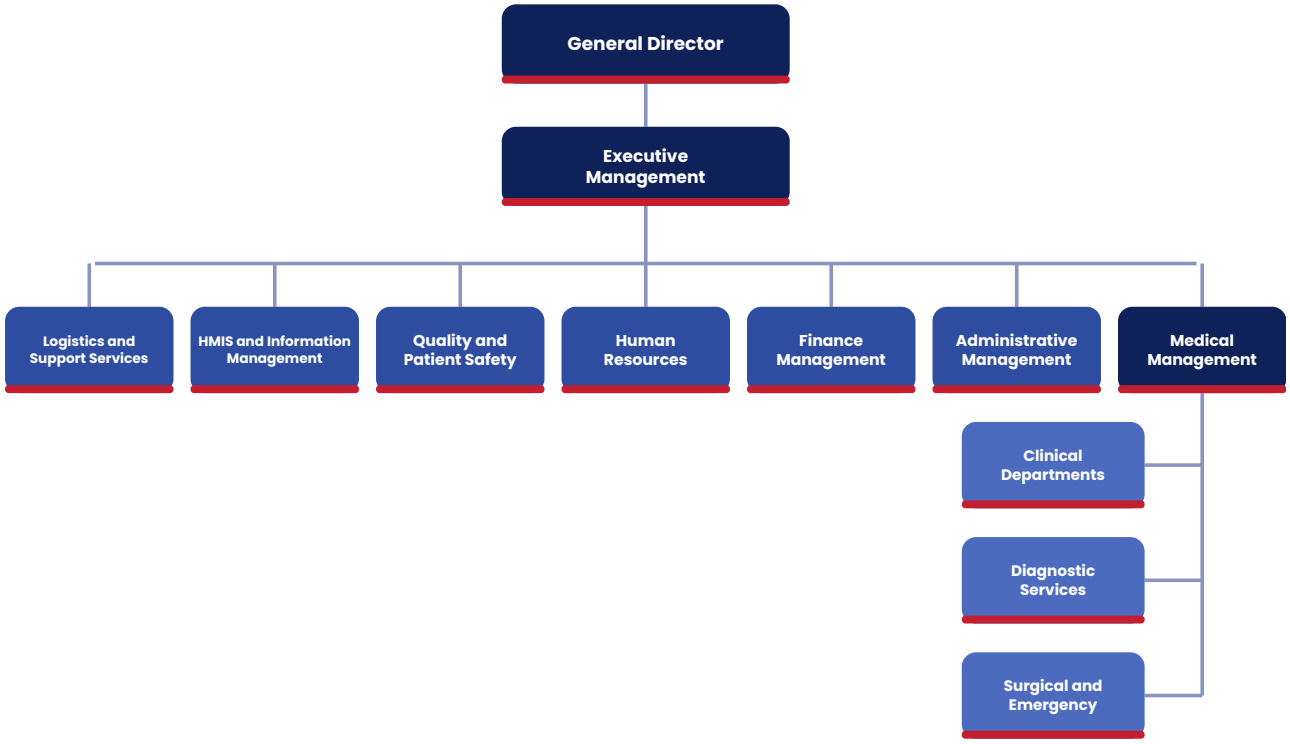

Support Services

The following support service departments are included to ensure the hospital's continuous operation:

Key Responsibilities

- Security
- Cleaning and Hygiene
- Transportation / Ambulance Services
- Technical Maintenance
- Electricity and Facilities
- Support Staff

Organizational Chart

Purpose of the Organizational Structure

The organizational structure of Ayubi Al-Shifa Medical Complex is designed to establish a well-organized and effective system that ensures professional management, clear responsibilities, transparent administration, high-quality healthcare services, and patient safety.

CLINICAL

Medical Services and Clinical Departments

Ayubi Al-Shifa Medical Complex provides healthcare services based on patients' needs in the areas of diagnosis, treatment, surgery, emergency care, and inpatient services. The hospital follows the principles of quality, patient safety, and reliable care through a professional medical team, standardized procedures, and available resources.

- General Internal Medicine Department
- General Surgery Department
- Pediatrics Department
- Orthopedics Department
- Urology Department
- Dental Services – Planned for Development
- Laboratory Services
- Radiology and Ultrasound Services
- Pharmacy Services
- Emergency Medical Services
- Inpatient Services

Planned & Future Medical Services

Ayubi Al-Shifa Medical Complex plans to further expand its specialized medical services in line with its strategic development plan, based on the healthcare needs of the community and the programs of partner organizations.

The following areas are included in this development plan:

1 Obstetrics & Gynecology Department

The activation of Obstetrics and Gynecology Services to strengthen maternal and child health is one of the key development objectives of the hospital.

The hospital plans to activate this department, subject to the establishment of the relevant contract, needs assessment, and partnership arrangements, along with the necessary:

- Qualified Healthcare Professionals
- Medical Equipment
- Service Organization and Coordination
- Administrative and Technical Requirements

PLANNED SERVICES

2 Dentistry Department

To meet the community's oral and dental healthcare needs, **Dental Services** are also included in the hospital's future development plan.

Ayubi Al-Shifa Medical Complex can make the necessary preparations to activate these services based on identified needs and the establishment of appropriate partnerships.

3 Maternal & Child Health Services

Ayubi Al-Shifa Medical Complex places special emphasis on maternal and child health and is committed to collaborating with government institutions, national and international health organizations, and partners to strengthen services in this area.

With an appropriate contract and technical support, the hospital can activate and expand maternal and child health services in accordance with standardized healthcare principles.

Commitment to Development

Ayubi Al-Shifa Medical Complex is committed to strengthening its current 30-bed capacity and plans to gradually expand its services to 50 beds and eventually 100 beds, while increasing its capacity to provide specialized medical services.

Our goal is to gradually and systematically develop a comprehensive healthcare center that responds to the needs of the community and provides patients with reliable, safe, and professional healthcare services.

DIAGNOSTICS

Diagnostic Services

Introduction

Accurate diagnosis is the foundation of high-quality treatment. Ayubi Al-Shifa Medical Complex strives to provide reliable and timely diagnostic services through modern medical equipment, qualified technical staff, and standardized diagnostic procedures.

Diagnostic services play a vital role in supporting the hospital's medical departments and contribute to the accurate assessment of patients' conditions, selection of appropriate treatment, and monitoring of treatment progress.

Laboratory Services

Ayubi Al-Shifa Medical Complex provides laboratory testing services to support the diagnosis and treatment of diseases and medical conditions.

Main Services

- Complete Blood Count (Hematology)
- Clinical Chemistry Tests
- Urinalysis and Other Body Fluid Tests
- Infectious Disease Testing
- Essential Laboratory Services for Emergency Patients
- Follow-up and Monitoring Tests for Patients

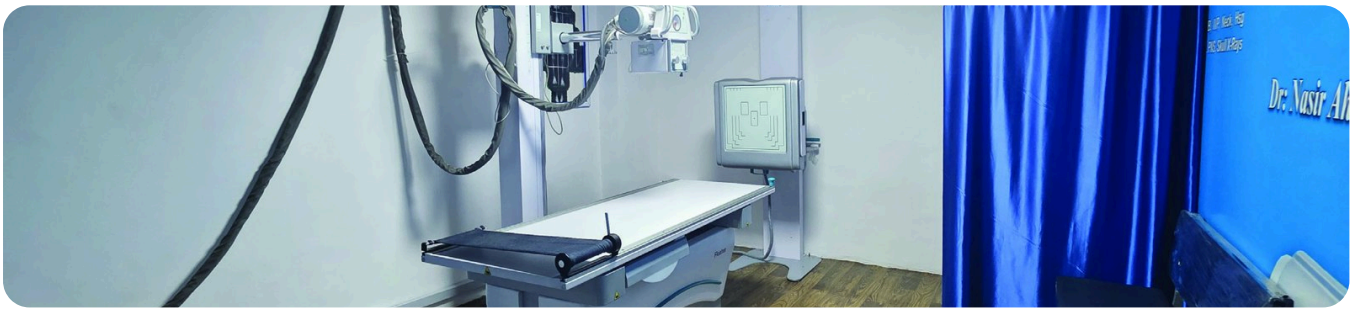

IMAGING

Radiology & Imaging Services

Radiology services provide essential support for disease diagnosis, treatment planning, and surgical decision-making.

Main Services

- Ultrasound of the Abdomen and Internal Organs
- Assessment of the Kidneys and Urinary System
- Pregnancy-Related Assessments, Based on Need and Service Activation
- Diagnostic Support for Patient Follow-Up

Ultrasound Services

Ultrasound is an important non-invasive diagnostic tool used to evaluate a wide range of medical conditions.

Main Services

- Abdominal and Internal Organ Ultrasound
- Kidney and Urinary System Assessment
- Pregnancy-Related Assessments, Based on Need and Service Activation
- Diagnostic Support for Patient Follow-Up

Cardiac Diagnostic Support

For the initial assessment and follow-up of patients with cardiovascular conditions

- ECG (Electrocardiography)
- Initial Assessment of Cardiac Conditions
- Diagnostic Support for Specialist Consultation

EMERGENCY

Emergency Diagnostic Support

Diagnostic services support the rapid assessment of emergency patients, helping facilitate timely diagnosis and appropriate emergency medical care.

In this section

- Urgent Laboratory Tests
- Urgent Diagnostic Imaging
- Assessment of Vital Signs and Critical Conditions
- Support for Rapid Treatment Decisions

Medical Information and Reporting System

Ayubi Al-Shifa Medical Complex uses an organized system for the recording, storage, and management of patients' diagnostic information, in order to ensure accurate documentation, efficient information management, and reliable reporting

- Ensure the patient's medical history is securely maintained
- Facilitate the tracking of diagnostic results
- Improve the quality of medical decision-making
- Ensure patient confidentiality

Future Diagnostic Development Plan

According to the hospital's development plan, Ayubi Al-Shifa Medical Complex aims to further expand its diagnostic services in line with the growth of its capacity.

In the coming phases, there are plans to strengthen and expand the following facilities:

- Advanced Laboratory Services
- Advanced Diagnostic Imaging Facilities
- Specialized Diagnostic Services
- Use of New Medical Technologies

COMMITMENT

Ayubi Al-Shifa Medical Complex is committed to providing reliable diagnostic services to achieve better treatment outcomes through accurate diagnosis, timely services, quality control, and patient safety.

EMERGENCY & SURGICAL

Emergency & Surgical Services

Introduction

Ayubi Al-Shifa Medical Complex is committed to providing rapid, organized, safe, and professional healthcare for emergency and surgical patients. The goal of emergency services is to assess patients promptly, prioritize them according to the severity of their condition, and provide appropriate medical, surgical, and supportive care based on their needs.

The hospital's emergency and surgical services are organized around patient safety, professional ethics, effective time management, teamwork, and standardized medical procedures.

EMERGENCY

Emergency Department

The primary objective of the Emergency Department is to provide timely medical care to patients who require urgent assessment and treatment.

Main Services

- Initial Assessment and Stabilization of Emergency Patients
- Triage Based on the Severity of the Patient's Condition
- Management of Emergency Medical Conditions
- Initial Treatment of Injuries and Acute Conditions
- Continuous Monitoring of Vital Signs
- Urgent Laboratory and Diagnostic Support
- Urgent Referral to the Surgical Team When Required
- Admission or Referral to an Appropriate Healthcare Facility When Necessary
- Essential Medical Guidance for Patients and Their Families

Emergency Patient Management

The hospital strives to maintain a well-organized emergency care pathway:

1	2	3	4	5	6	7
Patient Arrival	Initial Assessment / Triage	Medical Stabilization	Diagnosis	Treatment	Admission / Surgical Decision	Follow-Up or Referral

The purpose of this system is to reduce patient waiting times, enable rapid identification of emergency conditions, and ensure timely initiation of appropriate treatment.

SURGERY

Surgical Services

Ayubi Al-Shifa Medical Complex provides surgical assessment, operative procedures, and preoperative and postoperative care for patients who require surgical intervention.

Key Components of Surgical Services

- Initial Assessment of Surgical Patients
- Medical Assessment of the Need for Surgery
- Preoperative Preparation
- Performance of Surgical Procedures
- Postoperative Monitoring and Care
- Pain Management
- Surgical Wound Care
- Identification and Management of Complications
- Discharge Planning and Follow-Up Care

General Surgical Services

General surgical services are organized according to the hospital's capacity, available specialists, and existing facilities.

- Management of Emergency Surgical Cases
- Soft Tissue Surgery
- Abdominal and Intra-abdominal Surgery
- Surgical Management of Injuries
- Inpatient Care for Surgical Patients
- Postoperative Follow-Up

Note: Each surgical procedure should be performed only according to the availability of qualified specialists, required equipment, appropriate operating-room conditions, and applicable medical standards.

OPERATING ROOM

Operating Theatre

The operating room should be managed in accordance with principles of surgical safety, infection prevention, sterilization, proper equipment, emergency preparedness, and the availability of a qualified professional team to support the delivery of surgical services.

Key Components of the Operating Room

- Operating Room
- Surgical Instruments and Equipment
- Sterilization and Sterile Services
- Surgical Team
- Anesthesia Facilities and Equipment
- Surgical Safety Checklist
- Proper Medical Waste Management

Anesthesia & Perioperative Care

For the safety of surgical patients, anesthesia services must be provided by qualified and licensed professional personnel.

Key Elements of Care

- Preoperative Patient Assessment
- Appropriate Anesthesia Planning
- Monitoring of Vital Signs During Surgery
- Postoperative Patient Monitoring
- Pain and Potential Complication Management

RECOVERY

Postoperative Care

Following surgery, patients receive postoperative care according to their medical needs, including:

- Monitoring of Vital Signs
- Pain Management
- Wound Care
- Follow-Up on Treatment
- Monitoring for Potential Complications
- Discharge and Follow-Up Instructions

Surgical Patient Safety

Ayubi Al-Shifa Medical Complex is committed to adhering to standard safety principles to ensure the safety of surgical patients. Postoperative care includes:

- Monitoring of Vital Signs
- Pain Management
- Wound Care
- Treatment Follow-Up
- Monitoring for Potential Complications
- Discharge and Follow-Up Instructions

In this section, the following surgical safety measures are included:

- Patient Identity Verification
- Verification of the Surgical Site and Procedure
- Assessment of Allergies and Relevant Medical History
- Surgical Safety Checklist
- Infection Prevention Practices
- Sterilization Procedures
- Postoperative Monitoring
- Documentation and Evaluation of Medical Incidents and Complications

MOTHERS & CHILDREN

Maternal & Child Emergency and Surgical Services

Women's and children's healthcare services are among the key areas of the hospital's future development. Once these services are activated, the hospital will provide appropriate maternal and child healthcare services in accordance with the applicable contract, available facilities, and required licenses.

- Preoperative Patient Assessment
- Appropriate Anesthesia Planning
- Monitoring of Vital Signs During Surgery
- Postoperative Patient Monitoring
- Management of Pain and Potential Complications

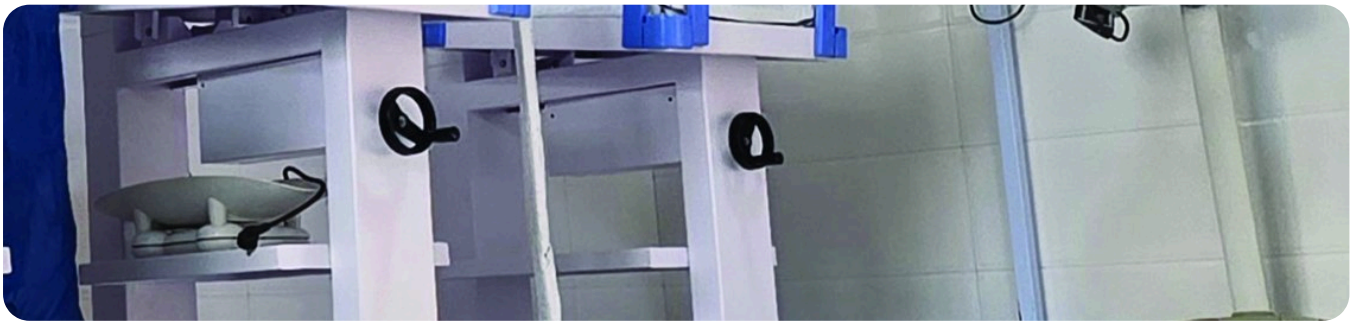

Note: Full activation of obstetric and gynecological services will be carried out in accordance with the required licenses, availability of qualified professional staff and necessary equipment, and the actual service needs.

Support Services for Emergency and Surgical Care

The following services provide essential support for the effective operation of emergency and surgical services:

Laboratory Services	X-Ray Services	Ultrasound Services
Pharmacy Services	Blood-Related Services, according to available capacity and applicable regulations	Ambulance Services
ICU / Critical Care, according to available capacity	Sterilization and Infection Prevention	Medical Supplies and Logistics

ALWAYS AVAILABLE

Commitment to 24-Hour Services

Ayubi Al-Shifa Medical Complex, in line with its core mission, strives to maintain an organized system for essential emergency healthcare services throughout the day and night, ensuring that patients receive timely medical assessment and appropriate care during emergencies.

The continuity of 24-hour services depends on the availability and proper coordination of sufficient qualified personnel, essential equipment, medicines, supplies, security, electricity, and other supporting systems.

ROADMAP

Future Development

In addition to its current 30-bed capacity, Ayubi Al-Shifa Medical Complex plans to expand to **50 beds in the medium term** and up to **100 beds in the long term.**

As part of this expansion, and subject to needs, required licenses, qualified human resources, and available facilities, the following services are planned for development:

- Surgical Services
- Emergency Care
- ICU / Intensive Care Services
- Maternal and Child Health Services
- Specialized Surgical Services
- Neurosurgery Services
- Advanced Diagnostic Services

Core Service Commitment

Ayubi Al-Shifa Medical Complex is committed to making patient safety, professional care, timely action, standardized procedures, and respect for human dignity the fundamental principles of its emergency and surgical services.
